

Taeon Oil Spill Clean-up Opportunity

A Day (Friday, 25 January) on the Beach to Remember

The Korea Wetland Project (koreawetland.org) is a nationally executed Ministry of Environment project, supported by UNDP and the Global Environmental Facility (GEF) that is working with local communities to protect globally important wetlands in the ROK.

Thousands of volunteers from the public and private sector have already responded to the *Hebei Spirit* oil spill, however there is still a lot more work to do and our project has organized a free one day bus trip to Hagampo Beach (Chungnam Province, Taeon Peninsula) to join the clean-up efforts .

If you had wanted to join the teams of volunteers who showed up in December but was not able, here is your chance to be involved.

Schedule:
